WELCOME TO OUR FAMILY ADVENTURE

For over 20 years we've been enjoying getting you out, under the stars, back to basics, and enjoying time with family and friends. Whenever we create new products, we do it with the hope of inspiring new adventures. Our products are always influenced by experience, so whether it involves 4WD touring, base camping with the family, a spontaneous weekend getaway, somewhere to sleep at a music festival, or that first-ever backyard camp-out, we've created something for you. Now go and create awesome!

Amanda Viglione

Director
The Oztent Group

FEATURED // OXLEY 7 LITE

ABOUT US

We're probably a lot like you. Adventurers who love the great outdoors.

Oztent was founded over 20 years ago by Joe Viglione, who was frustrated that it took too long to set up a tent. He dreamed of a tent that would literally set up in seconds. Thankfully, he also invented it, and in doing so redefined pitching

a tent. Today we are The Oztent Group, an Australian family-owned and operated business focused on quality and integrity, always. We take immense pride in developing products that will help our customers around the world create awesome outdoor experiences.

OUR VISION

To be the premier outdoor company, creating your experience that can only be described as awesome.

OUR MISSION

CREATE AWESOME.

OUR DESIGN APPROACH

From the very beginning Oztent has had a design approach built around developing products that work better and are aesthetically balanced with the environment they are used within. The first Oztent design was developed by inventor and company founder Joe Viglione to overcome the problem of conventional tents being difficult and time consuming to set up. Today this design approach remains at the centre of all products designed, or developed for market by The Oztent Group.

THE 30 SECOND TENT

The Oztent design eliminates the need for flexible guide poles using a unique and patented internal aluminium auto-locking frame system, which can be set up by one person in a fast 30 seconds.

PILOT CHAIR “KNUCKLE”

While many camp chairs have a similar look and feel, the Pilot Chair features a patented “knuckle” mechanism allowing for a smaller pack down size, even with the inclusion of built-in lumbar support. The unique design also allows for all parts to be fully replaceable.

MATERIALS & TESTING

Combined with unique and patented mechanisms, Oztent employs a stringent materials assessment to ensure all our products are durable enough to withstand the harshest environmental conditions. Materials are put through rigorous testing processes including:

- Rain simulation testing to provide a one hundred percent waterproof guarantee
- Wind tunnel testing
- Tear/abrasion and fire testing

Chairs are weight tested using static and repetitive weight bearing methods to ensure strength and durability.

DESIGN COURAGE

The most difficult element of designing camping gear is contrasting goals. Campers want a small pack size, but a big and spacious tent. A tent that is lightweight to carry, but rugged and durable enough to protect against the elements. Designing camping equipment, and tents particularly, takes courage. Our designs need to be intuitive, and work time after time – there is no tech support deep in the desert or in an isolated forest. Brands that last twenty years in this industry are tried, tested and trusted.

TIME FOR A GETAWAY

WHY OZTENT?

IT'S THE EXPERIENCE. SECONDS TO PITCH.
SECOND TO NONE.

Around the world the Oztent range has earned a reputation for speed, innovation and durability with campers who won't settle for second best.

Oztent inspires passion. Of all the gear that experienced campers carry, some would sooner part with their 4WD than they would their trusty Oztent. Like all great innovations, the Oztent just works and keeps working. Rugged, spacious and straightforward, there's an Oztent design for every camping application.

TENTS

FEATURED // OXLEY 5

OZTENT RV-1

Awesome does come in small packages! With a pack size of just 1.6m long, the Oztent RV-1 makes sense for people short on space, yet sets up to a height of 1.45m – and a tall 2.2m under the awning. Use it as a rooftop tent or even on a box trailer platform. Why spend big on a camper trailer?

Weight: 20 kg
Packed Size: 162cm (l) x 40cm (w) x 18cm (h)
Set Up Size: 150cm (l) x 215cm (w) x 145cm (h)
Awning Size: 200cm (l) x 215cm (w)

Warranty: 2 years (manufacturer)

Package Contents: 1 x tent, 1 x attached awning, 2 x 1.9m telescopic poles, 4 x guy ropes, 16 x pegs/stakes, 2 x awning guy ropes, 1 x owners manual, 1 x carry bag

Features: Wind tested to 100km/h, small 1.6m pack size, can be used as roof top tent, YKK zips on main entry, awning stiffener, power inlet, internal side windows, attached awning

OZTENT RV-2

An original and still going strong, the Oztent RV-2 fits 2 to 3 people and is a firm favourite with couples who want a great place to stay and a simple, fuss-free set up. Rise, shine and stretch – the RV-2 has a generous stand-up height too!

Features: Patented design, ideal for couples camping, YKK zips on main entry, awning stiffener, power inlet, internal side windows, attached awning

OZTENT RV-3

More space, same time. At 2.4m wide the Oztent RV-3 delivers more space than the RV-2 yet packs down to the same convenient 2m length in its bag. An ingenious location of the frame folding point is the secret to this clever, compact stowaway. So go big – it won't cost you any more space.

Features: Wind tested to 100km/h, patented design, big internal space, YKK zips on main entry, awning stiffener, power inlet, internal side windows, attached awning

OZTENT RV-4

If you think we packed some clever design features into the RV-3, then the Oztent RV-4 expands on that thinking – literally. Boasting the same compact pack size as its smaller sibling, the RV-4 features a smart, pull-out floor section at the back to create even more space. An awesome solution when you need a no-fuss tent that sleeps 4 to 5 people.

Features: Wind tested to 100km/h, patented design, YKK zip on main entry, awning stiffener, power inlet, internal side windows, attached awning

RV-5

In 2006 we listened to customer feedback calling for an even larger tent – and delivered it with the Oztent RV-5. Now a bona fide best seller, it takes the RV-4 design basics but goes wider and deeper... yet packs down to a handy 2m length in its bag. Plenty of room for 5 people. Still sets up in under 30 seconds. Awesome.

WHY FOXWING?

WE'VE GOT YOU COVERED.

Designed to ensure you're never without protection from the elements; the cleverly designed Foxwing 270° Awning is a one-piece swing-out awning that can easily be attached to roof racks, so it's always available. Whether you're creating a camping adventure, or day tripping, don't leave home without a Foxwing.

270° AWNING

Unique, due to its simple 1-person operation, the Foxwing 270° Awning can be set up and packed down in minutes. All claw spigot telescopic poles, reflective guy ropes and pegs are included and come with their own travel bag for neat storage that can be kept attached in the main bag or removed and stored separately with an easy clip-in/clip-out system. The Foxwing 270° Awning features a continuous external skirt to provide greater weatherproofing once accessories are attached, as well as integrated LED mounting points on the underside of the awning.

Material: Exclusive ModCan Material (Ripstop, CPAI-84 Fire Resistant Polyester)

Frame: Solid Aluminum

Weight: 19kg

Packed Size: 255cm (L) x 18cm (W) x 9cm (H)
